Extrast of Liter from Deminica, dated Ostober 10.

"Two Gentlemen just returned from Martinico, bring a Confirmation of the Ports in that Island and Guadaloupe being to be thut against any English Vessel, after the 31st of December next, upon any Pretence of Business whatever, even Lumber and live Cattle. There is at present great Demand for Fish here; but the French being abundantly supplied with Flour from Old France, makes that Article in no Demand: Heavy Philadelphia Flour was retailed by the Merchants here at 45 Shillings a Barrel, this Week. Many Vessels from Philadelphia, and other Parts of the Continent, laden with Provisions, have touched here in the Course of 30 Days, and all proceed further to Leeward.—We have been much afflicted with a putrid Fever, and many People have (and continue) to die; they scarce ever continue longer than Three or Four Days after the Illness seizes them.—Sugars are in great request here, there being longer than Three or Four Days after the Illness feizes them.—Sugars are in great requeit here, there being feldom less than Three or Four European Ships buying them up as fast as they arrive from the adjacent Islands.—We are now certain of a separate Government, and expect an Assembly to be elected before the Expiration of the present Year, which, to the Honour of the Chamber of Commerce, may be faid to have been effected by the prudent Measures they have taken, and its generally expected our present worthy Governor will be continued, which will be much to the Satisfaction of every Well-Wisher to the Island. By a Sloop, Captain Walker, just arrived from Eustatia, we have the following Account, that he tried that Place, St. Christophers, Antigua, and Montierrat, and that he could not sell his Bread and Flour at any Rate, and the Captain surther says, there is great Quantities stored at Christophers, Antigua, and Montserrat, and that he could not sell his Bread and Flour at any Rate, and the Captain further says, there is great Quantities stored at a let above Places.—The Spirit of Party runs very high here and at the Grenades. We have already begun to pick Cosses, which is expected will be One-fourth more in Quantity than has ever been produced from the Island of Dominica in One Crop before. Our Collector has finished his House by far the best of any upon the Island. And the Church has Divine Service performed in it regularly every Sunday, and is the First erected in the ceded Islands, which was built by Subscription. The Pensacola Packet has Orders to call here, for the Convenience of our Merchants, which will be very agreeable, as heretofore she used to leave the Dominica Mail at the Grenades.—The Four and Half per Cent Duty upon our Produce, causes much murmuring, being not laid upon us by Act of Parliament, or Act of Assembly, but only by Prerogative Royal, which is looked upon as unconstitutional and dangerous, not only to us, but all his Majesty's Subjects."

Last Week we had a very heavy Storm of Wind and Rain, the Severity of it was on Wednesday, no great Damage done in this Harbour; but in the Bay the Wind being violent at N. E. many Vessels were in great Distress: It is said 17 Sail, chiefly Sloops, were drove on the Southern Shore; a Brig from the West-Indies, — Brown, Master, laden with Molasses, drove on the Back of Cape Cod, the Vessel and most of the Cargo lost, valued at 1000 l. Sterling; a Brig—Smith, Master, from Newfoundland, a-shore at the same Place, the Vessel lost; a Brig from Petersburg, John Bryant, Master, a-shore near Barnstable, but likely to get off; a Sloop from North-Carolina, a-shore near Marshield, the Vessel lost, but the Cargo saved; a Sloop near Duxbury, the Vessel, Cargo, and all the People lost: Two dead Bodies have been taken up, several Chess, some Bedding, great Quantities of Cheese, Butter, Cyder, &c. were washed a-shore, by which it is supposed she was from Connecticut; but have not learnt the Master's Name.

A Snow from the West-Indies, Capt. Somerville, bound to Piscataqua, was cast away on the back of Newcostle: the Vessel and Cargo are said to be lost.

We hear the Subscription Paper for encreasing our own Manufactures, and laying ande certain enumerated Articles, fills up surprizingly; and that said Measure is so well approved of in the Country, that Town Meetings are now calling, in order to agree upon similar Measures. The public Papers and private Advices acquaint us, That Rhode-Island, Connecticut, New-York, New-Jersey, &c. &c. are steadily pursuing Measures for lessening their foreign Imports, by encouraging Frugality and their own Manusactures. It cannot be disputed that the Colonies are greatly in Debt, so that whatever is drawn from us by Way of Duty, must be those Monies which would go to Britain, as Pay, be those Monies which would go to Britain, as Pay, and to procure more Goods. A Necessity is laid upon us, to be industrious and frugal, and Wee be unto us, if we

Saturday last we were favoured with a Sight of the China Tea-Plant in Foliage, being cultivated by Capt./ Harrison of this Town; some of the dried Leaves being by Mrs. Harrison presented with the Shrub, in Flavour Shrub is annual, fowing its own Seed in this Climate, and wants nothing but the Method of Cure to render it useful thro' the Continent.

One of the Portimouth Packets was cast away in the late Storm, going round from hence, with Goods on board, to the Value of £4000 Sterling, belonging to

the Merchants there.

CHARLES-TOWN, (S. CAROLINA) Officher 6. Michael Muckenfuß, dispatched by the Post-Master General, with the Mail for St. Augustine, returned here last Wednesday, and gives the following Account, upon Oath, that on the 20th ult. (Three Days after he lest Savannah) he reached the Store on Santilly Riser, kept by James Lemmon, who told him, that the Day before, while George Mills, Benjamin Baker, Je-

remish Wylly, and one Cummins, were driving some Cattle across a Run of Water, near the said Wylly's House, the Three last mentioned were fired upon and killed on the Spot; Mills made his Escape, and rode towards Wylly's, where he saw Five Indians killing Two Women, Three Children, and old Mr. Mills, his own Father, on which he rode off; he knew the Indians to be Creeks, belonging to the Village of Allatchway, who, to the Number of Fifteen, had been for some Time hunting in that Neighbourhood. The House where this Murder was committed, is in East Florida, on St. Mary's River, Fifteen Miles above the Ferry, which the said Muckenfuss reached on the 22d in the Evening, but finding no Boat, and no Answer from the Ferry House, on the other Side, he supposed the People were sted, and not being able to cross the River, he

Other 20. Mr. Job Elliot, living at Saltketcher,
has brought to Goal one Moon, chief of the Villains
who have done so much Damage in the back Parts of
this Province, and whose Name has struck such Horror
into the Minds of his Majesty's Subjects; Mr. Elliot
met with him accidentally, a considerable Distance
from home, and having some Remembrance of him
when a Boy, decoyed him to a convenient Place, and
then secured him, agreeable to the Governor's Proclamation; and without any Assistance, or other Authority, brought him safe to Charles-Town Goal, where
he is now lodged; and it is hoped, the numerous Robberies and Outrages, it is said he has been guilty of,
will be known to some of the many Persons who will
be Attendant at the ensuing Sessions, so that there may
be no Want of Evidence to bring him to his deserved
Punishment. Said Moon is own Brother to one of the

NEWPORT, November 9.

Captain Giles Stanton arrived here, last Saturday, from Monto-Christi, in Twenty Days Passage. He informs, that the Spanish General at St. Domingo had sent Orders to the Mount, forbidding any English Vessel to lie there more than 24 Hours.

Captain Sheldon, from Newfoundland, in 17 Days,

Captain Sheldon, from Newfoundland, in 17 Days, informs us, that Governor Pallifer had lately condemned there, a French Ship and Cargo, which he found out of her Limits, for having only 6 Beaver Skins on board; the Veifel was afterwards cleared, and gone out of Port, but the Cargo detained.

This Morning the Snow Jerfey, Capt. Lawrence, arrived here from Briftol, in 8 Weeks: He took up at Sea, and has brought in with him, the Crew of the Ketch Mercury, Capt. Kennedy, of and from this Port for the West-Indies; which Vessel went all to Pieces in a Gale of Wind, about Six Days since, being then only Seven Days from this Port. only Seven Days from this Port.

PHILADELPHIA, November 19.

Extract of a Letter from London, September 19, 1767.

"As to Politics, every Thing still remains as it has done for some Time past. Lord Manssield is made Chancellor of the Exchequer pro Tempore, till our great Men can agree among themselves, or till some spirited, and honest Man, shall take the Lead (which I wish may be the Case) and, trusting in the King's Countenance and Support, who means nothing but the Happiness of his People, make a proper Arrangement of the Candidates for public Offices, and establish a Ministry upon a solid and respectable Footing; a Situation highly necessary for this Country.—Perhaps, in a few Weeks, you may hear something to the Purpose, but don't depend on it, for I think we were never farther from a Settlement than at this Juncture; I wish I may be found to have been mistaken." Extract of a Letter from London, September 19, 1767.

We hear from Burlington, that the new constructed light travelling Waggon, contrived by RICHARD WELLS, Esq. on a full Trial last Week, was found to answer its Design, to great Exastness. Among other Improvements, his Invention to discharge the Horses, in case of their running away is particularly worth Attenprovements, his Invention to dicharge the Hories, in case of their running away, is particularly worth Attention. This is done, at the Expence of about a Pistole, by the Riders (in the Inside of the Carriage) only pulling a String, when the Horses go off, and leave the Carriage standing. An Invention that bids fair to be of great life and Safety to those who ride in close Carriages. riages.
